**Irritable Bowel**  
**A.D.H.D / A.D.D.**  
**Restless Legs**  
**Sleep disorders**  
**Bloating**  
**Fatigue**

FIND OUT WHICH FOODS ARE MAKING YOU SICK  
and WHICH FOODS YOU CAN EAT

Many people today suffer from allergies. Allergies are accumulative and a reaction may not take place for up to four days. Often people crave the very foods they are allergic to.

It is very important that you have as many items as possible checked. Our programme includes Bio Compatibility testing for **300 local foods and products**. Our focus is to give you a list of safe foods you **can** use.

In my twenty years of specializing in this area, I have found that eating the wrong foods can aggravate most health problems.

**Test Today  
and  
START GETTING WELL**
